

PREMIUM TILE ADHESIVES

YOUR TILES NEED A BETTER GRIP
THAN CEMENT

PREMIUM TILE ADHESIVES

When it comes to tiles, one name stands tall-Kajaria.

India's number one tile brand, known for revolutionizing the industry with unmatched quality, innovation, and trust. But beyond tiles, we understand something deeper. The need for stronger bonds that hold every space together.

INTRODUCING GRESBOND BY KAJARIA

A premium range of tile adhesives, grouts, and cleaners, crafted to perfection. Built on the same foundation of reliability and excellence that defines Kajaria. GRESBOND delivers world class fixing solutions.

Engineered with cutting edge technology. Trusted by architects, builders, and professionals across the country. Whether it is residential charm or commercial scale. GRESBOND ensures precision, strength, and long lasting performance.

From the brand that has built a nation's trust. Comes a bond that builds it even stronger.

GRESBOND RANGE INCLUDES

- Premium Tile Adhesives
- Premium Epoxy Grouts
- Premium Unsanded Grouts
- Premium Tile Cleaners
- Glitter
- Admix
- Tiling Tools

TILES NEED A STRONG FOUNDATION

A tile's strength and durability depend on the right adhesive.

For modern, less porous tiles such as porcelain, polymer additives improve flexibility and tensile strength, ensuring reliable adhesion on smooth surfaces. Easy to apply and designed for long-lasting performance, these adhesives suit both residential and commercial projects.

When tiles need a strong foundation, high-quality cementitious adhesives provide the lasting bond required.

GROUTS MATTER JUST AS MUCH

High-quality grouts provide strong edge adhesion, excellent abrasion resistance, and controlled water absorption. They also maintain breathability, preventing moisture buildup.

Like flexible adhesives, grouts absorb stress and movement, keeping tiles intact for years. Choosing the right combination ensures a flawless, long-lasting finish.

LAYING LARGE TILES MADE EASY

Large-format tiles are redefining spaces—adding luxury, creating openness, and making cleaning easier.

But with size comes challenges. Proper adhesion and flexibility are crucial to prevent cracks and ensure durability. Polymer-enhanced adhesives provide the strength and adaptability needed for a flawless finish.

PREMIUM TILE ADHESIVES

FAST & ECONOMICAL

Easily cover large areas with GRESBOND Premium Tile Adhesive using a notched trowel. Adjust tiles effortlessly for a perfect, uniform finish.

NO SLIPPAGE

GRESBOND's high-quality wall adhesives prevent tile slippage.

CONSISTENTLY EXCELLENT RESULTS

Perfect Finish

Stain & Seepage Resistant

Water Resistant

Time-Saving (Ready to use in 24 hours)

High Bond Strength
(No hollowness)

Direct Application
(Works on any surface)

White Adhesive
(Ideal for light base tiles)

*** Note:** Not suitable for surfaces subject to vibration like plywood, metal, glass, gypsum boards, fibre cement slabs & smooth pre-fabricated concrete.

CHOOSE GRESBOND, NOT CEMENT

Properties	Sand / Cement	Gresbond Adhesive
Installation Time	Lengthy	Quick
Bed Thickness	15-40 mm	3-12 mm
Water Curing	Required	No
Bond Strength	Prone to failure	100% adhesion
Large Tiles	Not feasible	Feasible
External Cladding	Limited	Suitable
Tile-on-Tile	Not recommended	Highly effective

CX-1 Grey / CX-2 White

PREMIUM TILE ADHESIVE
FOR INTERNAL FLOORS &
CERAMIC WALLS

PRODUCT DESCRIPTION

CX-1 Grey / CX-2 White is a polymer-based tile adhesive specifically formulated for fixing ceramic tiles and small format natural stone, clay tiles, terracotta and quarry tiles of regular size. It is suitable for both vertical and horizontal surfaces, over the cementitious substrate for indoor application, in dry as well as wet areas. Easy to use with just water mixing.

SHELF LIFE

12 months (when stored in original sealed packaging under dry, shaded conditions)

COVERAGE (IN SQ. FT.)*

55-60 sq.ft. / 20 Kg bag at 3 mm thickness.

APPLICATION

CX-1 / CX-2 is perfect for dry areas and occasional moisture environments like bathrooms and kitchens. Choose CX-1 / CX-2 for exceptional bond strength, flexibility, fast curing, and user-friendly application.

ADVANTAGES

- Ready to use – just mix with water
- Fast and economical
- High bond strength
- Suitable for ceramic floor & wall tiles

CIT TYPE IT
EN 12004 IS 15477:2019

PACK SIZE 20 Kg

COLOR Available in Grey / White

COMPLIANCE ISO 13007, EN 12004,
IS 15477:2019

TECHNICAL DATA: (TYPE-1T/EN:CIT)

Density	Approx. 1.79 kg/litre
Pot Life	Min. 120 minutes
Open Time	Min. 20 minutes
Adjustability	Min. 20 minutes
Setting Time	Approx. 1 Day
Full Strength	Approx. 14 Days
Tensile Strength	>0.60 N/mm ²
Shear Strength	>1.00 N/mm ²

SUBSTRATES

- Concrete floor
- Cement sand screed
- Cement mortar beds
- Plaster
- Brick masonry

*Coverage may vary according to evenness / level of floor

TYPE 1T ADHESIVE SPECIFICATIONS AS PER IS 15477: 2019 @ 27 ± 2°C

PROPERTY: TEST METHOD	REQUIREMENT	TYPICAL VALUES
Tensile Strength		
Dry Conditions - Annex A (Clause 5.1)	0.50 N/mm ²	0.60–0.70 N/mm ²
Shear Adhesion Strength		
Dry Conditions - Annex B (Clause 5.2)	1.00 N/mm ²	1.10–1.20 N/mm ²
Slip Resistance		
Slip Resistance - Annex E (Clause 5.5)	≤0.50 mm	0.25–0.35 mm

METHOD OF APPLICATION

- Remove all Dust, Water, Oil, and Sealers from the Surface / Substrate
- Add 5 to 5.5* liters of clean water into an empty bucket.
- Add 20 kg thin set Adhesive into the water and mix it until a uniform paste is formed.
- Use the flat side of the trowel to spread the adhesive uniformly on the surface.
- Comb the adhesive with the notched side of the trowel.
- For tile sizes larger than 12"x12", apply adhesive to the back side of the tile as well.
- Gently tap tiles with a Rubber Mallet to remove air Voids.
- Clean the tile surface with a wet cloth.
- After 24 hours perform grouting.
- For best result, use KE-100 DUET Epoxy Grout.

*The powder-to-liquid ratio may vary depending on job site conditions.

VX-1 Grey / VX-2 White

PREMIUM TILE ADHESIVE
FOR INTERNAL FLOOR,
WALLS & EXTERNAL FLOOR

PRODUCT DESCRIPTION

VX-1Grey/VX-2 White is a high-performance, polymer-modified, cement-based adhesive specifically designed for fixing low-porosity tiles (vitrified, semi-vitrified) and natural stones on interior and exterior floors, walls-interiors, and even swimming pools. It offers exceptional bond strength, water resistance, and ease of use. The adhesive is water-resistant and is suitable for use in showers, wet areas and swimming pools. Also, ideal for renovation (tile-over-tile) for quick & easy installation works.

SHELF LIFE

12 months (when stored in original sealed packaging under dry, shaded conditions)

COVERAGE (IN SQ. FT.)*

55-60 sq. ft. / 20 Kg bag at 3 mm thickness.

APPLICATION

Suitable for interior and exterior floor and interior wall tiles, tile over tile installations, and bathroom tiling, upto 12 mm bed thickness. Its exceptional bond strength, flexibility, water resistance, and versatility make it the ideal choice for a wide range of applications.

ADVANTAGES

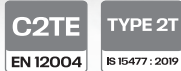

- Ready to use – just mix with water.
- Also suitable for marbles and tile on tile application.
- Can also be used for internal wall tile.
- Saves time as floors are ready to be used after 24 hours.
- Excellent adhesion & low shrinkage.

PACK SIZE 20 Kg

COLOR Available in Grey / White

COMPLIANCE ISO 13007, EN 12004,
IS 15477:2019

RENOVATION WORKS ON EXISTING

- Unglazed Tiles*
- Glazed Tiles & Mosaic Tiles*
- Vitrified & Ceramic Tiles*

*The surface should be roughened and properly cleaned before fixing the tiles.

*Coverage may vary according to evenness/level of floor & wall

SUBSTRATES

- Concrete wall & floor
- Cement sand screed
- Cement mortar beds
- Brick masonry
- Cement terrazzo (Roughened)
- Existing natural stone (Cleaned & roughened)

*Coverage may vary according to evenness/level of floor

EX-5 (Grey / White)

HEAVY DUTY PREMIUM TILE ADHESIVE FOR EXTERNAL WALL & FLOOR TILES

PRODUCT DESCRIPTION

EX-5 Grey / White high performance, polymer modified, non-slip adhesive. It is an improved slip-resistant cementitious adhesive with extended open time, classified as 3TS1 as per IS 15477:2019. This adhesive is designed for tile-on-tile works and the installation of vitrified tiles, natural stones, and glass mosaics on walls and floors in both interior and exterior situations up to a 6mm bed thickness, which can be averaged up to 12mm. The set adhesive is water-resistant and suitable for use in wet areas like swimming pools and water bodies.

SHELF LIFE

12 months (when stored in original sealed packaging under dry, shaded conditions)

COVERAGE (IN SQ. FT.)*

55-60 Sq.ft. / 20 Kg bag at 3 mm thickness.

APPLICATION

Suitable for exterior & interior surfaces for both floor & wall surfaces.

FEATURES

- Simply mix with water and it is ready to use.
- No curing required.
- Water resistant.
- High strength adhesive.

SUBSTRATES

- Concrete wall & floor, cement sand screed.
- Cement mortar beds, plaster, brick masonry.

PACK SIZE 20 Kg

COLOR Available in Grey / White

COMPLIANCE ISO 13007, EN 12004, IS 15477:2019

ADVANTAGES

- Suitable for all types of tiles for both interior & exterior solutions.
- Excellent tensile & shear adhesion.
- Heat & weather resistant.

ADDITIONAL INSTRUCTIONS

- **Mixing and Application:** Follow the recommended mixing and application procedures carefully.

• Expansion Joints:

- Expansion joints are essential to accommodate natural movement in tile assemblies.
- External areas: Provide joints every 10 meters.
- Internal areas: Provide joints every 25 meters.

• Mechanical Anchoring:

- For tiles larger than 30 cm, the need for mechanical safety anchoring must be evaluated by the project designer.

- For tiles larger than 60 cm, add a suitable percentage of adhesive admix to the mixing water to help manage thermodynamic movement within the structure.

• Adhesive Application:

- Always apply adhesive to both the back of the tile or stone and the substrate.
- Do not use adhesive to correct surface irregularities greater than 12 mm.

• Curing and Protection:

- Protect from direct rainfall for at least 24 hours after installation.
- Be aware that temperature, air flow, and the absorption level of the surface or tile may affect the adhesive's workability and setting time.

• Tooling:

- Use a properly sized toothed trowel to ensure correct adhesive coverage.

***Note:** An expansion joint allows for safe movement due to temperature changes, vibrations, ground shifts, or seismic activity while keeping tile installations secure.

TECHNICAL DATA: (TYPE-3TS1)

Density	Approx. 1.7 kg/litre
Pot Life	Min. 120 minutes
Open Time	Min. 30 minutes
Adjustability	Min. 30 minutes
Setting Time	Approx. 1 Day
Full Strength	Approx. 14 Days
Tensile Strength	>1.60 N/mm ²
Shear Strength	>1.60 N/mm ²

RENOVATION WORKS ON EXISTING

- Unglazed Tiles*
- Glazed Tiles, Mosaic Tiles*
- Vitrified & Ceramic Tiles*

*The surface should be roughened and proper cleaned before fixing the tiles.

** Fastening is recommended to install slabs / big size tiles over facade on high rise walls.

***Coverage may vary according to evenness / level of floors / walls.

1
Remove all Dust, Water, Oil, and Sealers from the Surface / Substrate

2
Add 5 to 5.5* liters of clean water into an empty bucket.

3
Add 20 kg thin set Adhesive into the water and mix it until a uniform paste is formed.

4
Use the flat side of the trowel to spread the adhesive uniformly on the surface.

5
Comb the adhesive with the notched side of the trowel.

6
For tile sizes larger than 12"x12", apply adhesive to the back side of the tile as well.

7
Gently tap tiles with a Rubber Mallet to remove air Voids.

8
Clean the tile surface with a wet cloth.

9
After 24 hours perform grouting.

10
For best result, use KE-100 DUET Epoxy Grout.

*The powder-to-liquid ratio may vary depending on job site conditions.

LX-7 (Grey / White)

PREMIUM TILE ADHESIVE
FOR INTERNAL AND
EXTERNAL FLOOR & WALLS

PRODUCT DESCRIPTION

A highly deformable, polymer-modified tile adhesive for large-format tiles and stones. Suitable for both wall and floor installations. GRESBOND LX-7 is a multipurpose, highly polymer-modified, and highly deformable adhesive designed for the installation of large-format tiles and stones on various substrates. Its superior flexibility accommodates movements in the substrate, ensuring exceptional performance with sag and slump resistance. Suitable for both wall and floor installations.

SHELF LIFE

12 months (when stored in original sealed packaging under dry, shaded conditions)

COVERAGE (IN SQ. FT.)*

Approx. 55-60 sq. ft. / 20 Kg bag at 3 mm thickness.

APPLICATION

Suitable for all types of large format vitrified tiles, and natural stones, this adhesive can be used for both interior and exterior installations. It is ideal for wet areas such as swimming pools, saunas, and washrooms, and is also recommended for tile-over-tile applications.

PACK SIZE 20 Kg
COLOR Available in Grey / White
COMPLIANCE ISO 13007, EN 12004,
IS 15477:2019

ADVANTAGES

- Ready to use, needs only mixing with water.
- Can be used for new or old walls and tile on tile applications.
- Highly water resistance
- Flexible, shock and impact resistant
- High bond strength.

SUBSTRATES

- Precast concrete, shear walls and concrete floor.
- Cement plaster, cement mortar beds.
- Brick masonry.

TECHNICAL DATA: (TYPE-4TS1)

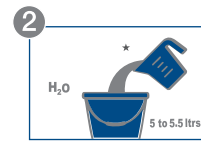

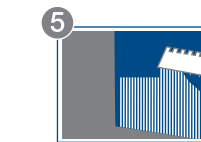

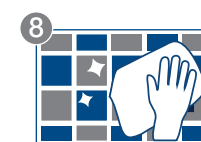

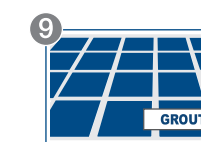

Density	Approx. 1.6-1.7 kg/litre
Pot Life	Min. 120 minutes

*The powder-to-liquid ratio may vary depending on job site conditions.

PUA-100

HIGHLY FLEXIBLE, TWO-COMPONENT POLYURETHANE ADHESIVE FOR DIVERSE SURFACES LIKE METAL, PLYWOOD & DRYWALLS

PRODUCT DESCRIPTION

GRESBOND PUA-100 is a high-performance, two-component polyurethane thinset adhesive designed for superior bonding of tiles and stone on both interior and exterior floors and walls. Engineered for exceptional flexibility, it is ideal for a wide range of substrates, including metal, plywood, and drywall. This multipurpose adhesive ensures strong and durable adhesion, making it the perfect solution for challenging installations.

SHELF LIFE

12 months for sealed pack when stored under cover, out of direct sunlight, dampproof condition and protect from extremes of temperature.

COVERAGE (IN SQ. FT.)

- 16-20 sq. ft /4 kg pack-1.5 mm bed thickness (using 3 mm x 3 mm notch)
- 8-10 sq. ft /4 kg pack - 3 mm bed thickness (using 6 mm x 6 mm notch)

APPLICATION

Ideal for fixing various tile types-ceramic, vitrified, glass mosaic, large-format, slim tiles, precast terrazzo, engineered/ natural stones, composites, and metal / glass tiles. Suitable for tile-over-tile use and high- stress areas like kitchens, balconies, roofs, domes, commercial and industrial zones, and vertical installations up to 3 m (use mechanical support above 3 m).

PACK SIZE 4,5 & 8 Kg
COMPLIANCE ISO 13007, EN 12004, IS 15477:2019

ADVANTAGES

- Easy-to-use two-component mix.
- Long open time – ideal for large tiles and external use.
- Resistant to water, freezing, and thermal shock.
- Heat and weather resistant – suitable for outdoor/high-temp areas.
- Highly flexible – absorbs vibrations
- Resistant to chemicals, solvents, alkalis, and oils.
- Bonds well to glass, metal, drywall, plywood, and more.
- Compatible with all tile types, including composites and metal/glass tiles.

SUBSTRATES

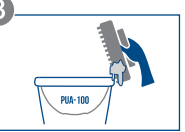

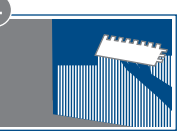

Cement-based surfaces (plaster, screeds, concrete), metal (steel, aluminum), epoxy/ PU coatings, drywall (gypsum, bison, cement boards), existing tiles and stones, plywood, MDF, wood derivatives, glass, rubber, and PVC.

TECHNICAL DATA: (TYPE-5TS2)

Density	1.65 ± 0.1 kg/litre (approx.)
Pot Life	Min. 60 minutes
Open Time	Min. 60 minutes
Adjustability	Min. 60 minutes
Setting Time	Approx. 24 hours
Full Strength	Approx. 3 days (7 days for heavy-duty traffic)
Tensile Strength	≥2.5 N/mm²
Shear Strength	≥7.0 N/mm²

TYPE 5TS2 ADHESIVE SPECIFICATIONS AS PER IS 15477 :2019@ 27 ± 2°C		
TESTING PROPERTIES	REQUIREMENT	TEST RESULTS
Tensile Strength		
Dry Conditions	≥2.0 N/mm²	≥2.5 N/mm²
Wet Conditions		≥1.5 N/mm²
Shear Adhesion Strength		
Dry Conditions	≥6.0 N/mm²	≥7.0 N/mm²
Wet Conditions		≥6.0 N/mm²
Heat Aging Condition	≥3.0 N/mm²	≥6.0 N/mm²
Slip (less than 0.5 mm)	≤ 0.5 mm	≤ 0.3 mm
Deformability (mm)	≥5.0 mm	≥30 mm

METHOD OF APPLICATION

- 
Remove all Dust, Water, Oil, and Sealers from the Surface / Substrate
- 
Add PU adhesive into hardener and mix it, till it attains uniform paste.
- 
Use flat side of the trowel and spread the PU adhesive uniformly.
- 
Comb the adhesive with the notched side of the trowel.
- 
For tile sizes larger than 12"x12", apply adhesive to the back side of the tile as well.
- 
Gently tap tiles with a Rubber Mallet to remove air Voids.
- 
Clean the tile surface with a wet cloth.
- 
After 24 hours perform grouting.
- 
For best result, use KE-100 DUET Epoxy Grout.

KE-100

PREMIUM EPOXY GROUT

PRODUCT DESCRIPTION

GRESBOND KE-100 is a stain resistance epoxy grout for floors & walls. It is a colour fast, water & chemical resistant & 100% solid epoxy grout suitable for ceramic tiles, vitrified tiles, marbles and stones, especially in stain prone areas such as kitchens and washrooms (residential & commercial installations). It is ideal for installation where high strength mildew joints are required.

SUITABLE FOR JOINTS BETWEEN: 2-12mm.

SHELF LIFE

12 months in a dry unopened bucket. When stored under cover, out of direct sunlight, in a damp-proof environment, and protected from extreme temperatures.

APPLICATION

Residences, kitchens, bathrooms, swimming pools, fountains, hospitals, restaurants, showroom, industrial areas & high traffic areas.

FEATURES

- Fast colour
- Stain-resistant
- Easy to clean
- Resistant to chemicals and temperature
- Does not crack or powder
- Complies with ISO 13007 standards

ADVANTAGES

- Water resistant
- Stain free grout for floors & walls
- Available in a range of colors
- Chemical & bacterial resistant
- Enhances the look of walls & floors
- Easy to apply-smooth & creamy
- Easy to clean
- Uniform color resist blotching

KE-100 DUET

PREMIUM EPOXY GROUT WITH TWO COMPONENTS

PRODUCT DESCRIPTION

GRESBOND KE-100 DUET is a premium stain-resistant epoxy grout designed for both floors and walls. Suitable for all types of tiles, including marble and natural stone, this grout offers high resistance to chemicals and abrasion, ensuring durable and long-lasting joints. It produces hygienic joints that require minimal maintenance, making it perfect for kitchens and bathrooms. With its non-shrinking, fast-curing, and efflorescence-free formula, GRESBOND KE-100 DUET is ideal for installations requiring high-strength, mildew-resistant joints.

SUITABLE FOR JOINTS BETWEEN: 2-12mm.

SHELF LIFE

12 months in a dry unopened bucket. When stored under cover, out of direct sunlight, in a damp-proof environment, and protected from extreme temperatures.

APPLICATION

Domestics & commercial setups.

FEATURES

- Colour-fast
- Stain-resistant
- Easy to clean
- Resistant to chemicals and temperature
- Non-cracking and non-powdering
- Complies with ISO 13007 standards
- UV-resistant and suitable for external use

ADVANTAGES

- Water resistant
- Available in a range of colors.
- Chemical & bacterial resistant.
- Enhances the look of walls & floors.
- Easy to apply-smooth & creamy.
- Easy to clean.

PREMIUM UNSANDED GROUT

PRODUCT DESCRIPTION

PREMIUM UNSANDED GROUT is a high-quality, polymer-based, un-sanded cement grout designed for both interior and exterior use. It is perfect for filling joints between 1mm and 3mm wide on floors and walls. This versatile grout is suitable for a wide range of materials, including ceramic tiles, vitreous and semivitreous tiles, glass mosaic tiles, precast terrazzo, engineered stone floors, and natural stones. It is particularly recommended for institutional and commercial general floor and wall areas.

SHELF LIFE

12 months for sealed packs when stored in a dry, covered area away from direct sunlight and extreme temperatures.

APPLICATION

Premium Unsanded Grout should be mixed with Premium Grout Admix KGA-01. This combination ensures a strong, durable bond-enhancing both the lifespan and the aesthetic appeal of tiled surfaces.

ADVANTAGES

- Improved efflorescence control.
- Smooth finish.
- Weather resistant.
- Easy maintenance.
- Non-shrinking.
- Non-cracking.
- Easy application and clean up.
- Water & shock resistant.

ADMIX KGA-01

PRODUCT DESCRIPTION

GRESBOND Premium Grout Admix KGA-01 is a polymer based liquid admixture specially designed for use in combination with GRESBOND Unsanded Grouts. It provides a dense, colorfast grout ideal for all interior and exterior applications. It improves the performance and does not allow any moisture / water to seep into the back of the tile.

SHELF LIFE

12 months for sealed packs when stored in a cool, dry place-away from direct sunlight, moisture, and extreme temperatures.

APPLICATION

For interior & exterior application add 400ml of GRESBOND Premium Grout Admix KGA-01 in 1 kg unsanded grout and mix until a slump free & smooth grout is obtained.

FEATURES

- It locks the grout into the joint
- Seals, protects, and strengthens grout
- Grout and seal in one step
- Low VOC formula
- Features water repellent technology
- Shields grout from mold and mildew build up
- Easy to clean

METHOD OF APPLICATION

1

Mix 400ml of GRESBOND KGA-01 with 1kg grout until smooth and lump-free.

2

Apply the mix to the surface, pressing firmly into joints to ensure full filling.

3

Remove excess grout by wiping diagonally across the surface.

PACK SIZE 400ml
(Carton of 10 Bottles 4000 ml.)

ADVANTAGES

- For use in interiors and exteriors
- Provides smooth and uniform joints
- Shock & impact resistant
- No water leakage

TILE CLEANER TC1

PRODUCT DESCRIPTION

GRESBOND Tile Cleaner TC1 is a fast-acting, acid-based cleaner formulated for daily maintenance. It effectively removes dirt and stains from tile surfaces, keeping them clean and fresh.

SHELF LIFE

12 months for sealed packs when stored in a cool, dry place-away from direct sunlight, moisture, and extreme temperatures.

APPLICATION

- For interior & exterior application.
- Dilute to the correct ratios as required. Use 1 part of cleaner to 4 parts of clean water.
- Heavily soiled areas may require an undiluted solution to be applied.
- Always test initially on a small areas.
- Liberally apply the solution to the floor area to be cleaned. Leave in contact with area for approx. 4-5 minutes.
- Using a brush or a scrub pad thoroughly scrub the area treated with the solution.

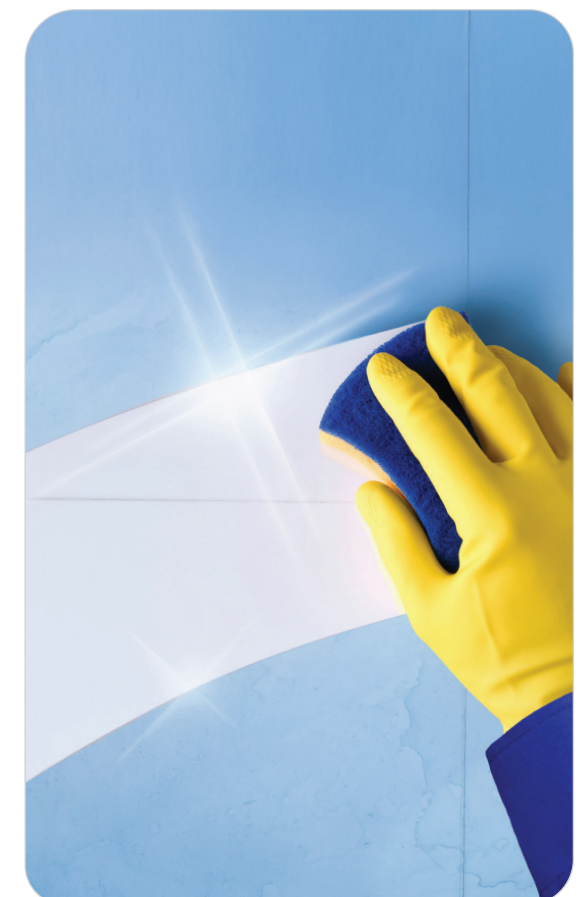

ADVANTAGES

- Please note that this is an acidic based cleaner and hence care should be taken while using the same.
- Please wear hand gloves, nose cover and wear eye protection before and while using the product.

NOTE:- KEEP OUT OF REACH OF CHILDREN
