

TECHNICAL DATA SHEET

CORDLESS TILE VIBRATOR

A **Cordless Tile Vibrator** is a handheld power tool designed to ensure proper adhesion and leveling of tiles during installation. It helps remove air gaps and enhances bonding between the tile and adhesive, reducing the risk of hollow spots and uneven surfaces.

INCLUDES:

- Hard Case
- Vibrator Machine
- 20V 2 Batteries
- Charger
- Manual

SPECIFICATIONS:

- Applicable Scope: 30-200cm
- Charging Current: 1.5A
- Absorption Capacity: 60kg
- Vibration Frequency: N/A

ADVANTAGES

- **Removes Air Pockets:** Eliminates trapped air beneath tiles for better adhesion.
- **Ensures Even Adhesive Spread:** Distributes adhesive uniformly under tiles.
- **Improves Tile Bonding:** Enhances contact between tiles and adhesive.
- **Levels Tiles:** Helps adjust tiles to prevent lippage.
- **Reduces Installation Time:** Speeds up the tile setting process.
- **Minimizes Tile Breakage:** Reduces stress on tiles during installation.

WHEN YOU USE TILE VIBRATOR

1. Enhanced Adhesion
2. Even Tile Placement
3. Faster Installation
4. Reduced Lippage
5. Portable and Convenient
6. Minimizes Tile Damage

WHEN YOU DON'T USE PLASTIC TILE VIBRATOR

1. Poor Adhesion
2. Uneven Tile Placement
3. Increased Lippage
4. Air Pockets Formation
5. Longer Installation Time
6. Higher Risk of Tile Breakage
