

TECHNICAL DATA SHEET

RUBBER MALLET

The **Soft Head Rubber Hammer** is made from premium quality rubber for added durability and long-lasting use. The rubber head is durable, with good elasticity, and resistant to cracking and breaking under pressure.

SOFT HEAD RUBBER MALLET(250GR), Mallet Weight-365gm

ADVANTAGES

- **Align Tiles:** Gently taps tiles to position them correctly.
- **Leveling:** Helps ensure tiles are even with adjacent tiles.
- **Eliminates Air Pockets:** Removes trapped air under tiles for better adhesive contact.
- **Strengthens Bond:** Ensures the adhesive spreads evenly for a secure hold.
- **Protects Tiles:** The rubber head prevents cracks and surface damage while adjusting tiles.

WHEN YOU USE RUBBER HAMMER

1. Protects Tiles from Damage
2. Ensures Accurate Positioning
3. Strengthens Adhesive Bond
4. Eliminates Air Gaps
5. Promotes Even Leveling
6. Speeds Up Installation

WHEN YOU DON'T USE RUBBER HAMMER

1. Misaligned Tiles
2. Uneven Surface
3. Weak Adhesive Bond
4. Air Pockets Formation
5. Increased Risk of Tile Damage
6. Poor Finish Quality
