

TECHNICAL DATA SHEET

ST9-1400 W MIXER

The **ST9-1400 W** is a high-performance electric mixer designed for efficient mixing of tile adhesives and similar construction materials. It delivers smooth, lump-free blends, ensuring consistency and optimal adhesive performance. Its powerful motor accelerates the mixing process compared to manual methods, saving time while maintaining the integrity of the mix.

ST9-1400 MIXER, weight-7000gm

ADVANTAGES

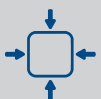

- **Mixing Tile Adhesive:** Ensures a smooth and consistent adhesive mixture.
- **Blending Grout and Mortar:** Helps achieve uniform texture and color.
- **Reducing Lumps:** Breaks down clumps for a smooth mixture.
- **Improving Adhesion Strength:** Ensures proper consistency for better bonding.
- **Saving Time and Effort:** Speeds up the mixing process compared to manual mixing.
- **Maintaining Product Quality:** Ensures adhesive maintains its intended performance properties.

WHEN YOU USE MIXER

1. Consistent Mixture Quality
2. Stronger Bonding
3. Faster Mixing Process
4. Reduces Air Bubbles
5. Easy to Use
6. Waste Reduction

WHEN YOU DON'T USE MIXER

1. Inconsistent Mixture Quality
2. Weaker Adhesion
3. Formation of Lumps
4. Longer Mixing Time
5. Air Pockets in Adhesive
6. Increased Material Waste
