

# TECHNICAL DATA SHEET

## TILE SHAPING TEMPLATE

A **Tile Shaping Template** is a tool used for accurately measuring, cutting, and shaping tiles, particularly in flooring, wall installations, or decorative tiling projects.

TILE SHAPING TEMPLATE, Weight-590gm

### ADVANTAGES

- **Cutting Complex Shapes:** Helps trace and cut tiles to fit around pipes, corners, and edges.
- **Ensuring Accurate Measurements:** Provides a precise guide for cutting tiles.
- **Fitting Irregular Spaces:** Adapts to uneven or awkward areas for a perfect fit.
- **Saving Time:** Speeds up the cutting and fitting process.
- **Reducing Tile Waste:** Minimizes errors, leading to less material waste.
- **Creating Professional Finish:** Ensures clean and precise tile cuts for a polished look.

### WHEN YOU USE TILE SHAPING TEMPLATE

1. Accurate Tile Cutting
2. Easy to Use
3. Versatile Application
4. Reduces Material Waste
5. Speeds Up Installation
6. Enhances Finish Quality

### WHEN YOU DON'T USE TILE SHAPING TEMPLATE

1. Inaccurate Tile Cuts
2. Poor Fit Around Edges and Corners
3. Increased Material Waste
4. Longer Installation Time
5. Uneven Finish
6. Higher Risk of Tile Breakage
