

TECHNICAL DATA SHEET

TILE SPACERS

Tile Spacers are an essential tool for achieving a professional – looking finish when installing tiles or stones. They ensure that the gaps between the tiles are consistent and uniform, which is crucial for preventing damage and achieving an aesthetically pleasing finish.

TILE SPACERS (100 Pcs Per Packet)

Available in: 1, 2, 3, 4 mm

ADVANTAGES

- **Maintains Consistent Gaps:** Ensures uniform spacing between tiles.
- **Improves Alignment:** Keeps tiles straight and evenly positioned.
- **Allows Grout Application:** Creates space for grout to bond properly.
- **Prevents Tile Shifting:** Holds tiles in place during installation.
- **Enhances Aesthetic Finish:** Ensures a clean and professional look.
- **Facilities Expansion and Contraction:** Provides room for natural tile movement, reducing the risk of cracks

WHEN YOU USE TILE SPACER
